VIDEO SHARING AND STREAMING SERVICE

The only platform to offer “free” movies, series, talk shows and documentaries worldwide.

Bebuzee User Acquisition

Bebuzee has increased its users by 78% during this pandemic, gaining over 40 million users and being selected among the top 48 fastest growing British tech companies and the first and only Social Network to offer free streaming of movies, documentaries, series and talk shows globally.

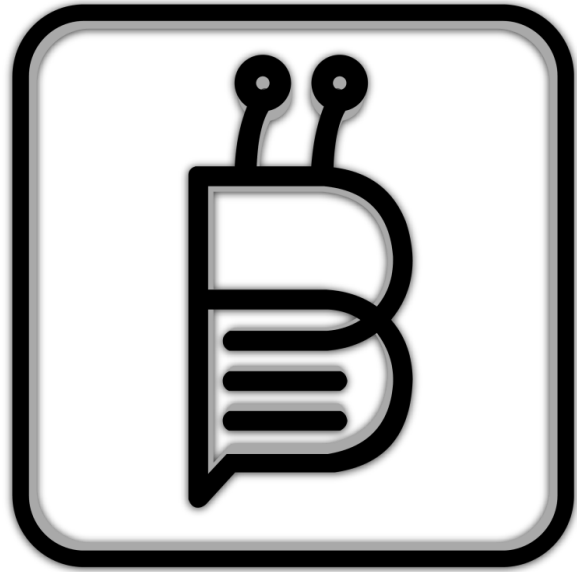

Value Proposition

PROBLEM

It was obvious that most social media platforms were generic and only local postings made those platforms somewhat relevant to the local communities.

SOLUTION

Bebuzee have localized its platform for most countries by providing Local content such as news and information and also movies, documentaries, series, talk shows not posted anywhere else, all from over fifty movie studios granting exclusive rights for a limited period of new release. Add new releases weekly from these producers, and Bebuzee becomes the premiere supplier of entertainment and information globally, serving all of this at no cost to the viewer.

Competition

Market

The global video streaming market size stood at USD 342.44 billion in 2019 and is projected to reach USD 842.93 billion by 2027.

Improved connectivity and advancement in technology has made live video accessible to almost everyone having internet connection. In today's digital space, video streaming has become an influential media for accessing information. Moreover, the increasing preference for streaming services and the growing popularity of live videos among various businesses is fuelling the video streaming market growth. According to a study conducted by Cisco System, Inc. 2018, over 47% of the increase was observed in live streaming as compared to 2017.

In this current pandemic scenario, millions of people are working from home, a dramatic increase in the consumption of streaming video is witnessed over the past two months. This has forced live and on-demand streaming companies to take some measures like repeat telecasts of the old shows and reduction of streaming quality. The streaming service providers are temporarily migrating from H.D to S.D streaming and are dispensing high bandwidth pop-ups and ads to ease the network load
